---

D,

FYI, our contractor did an assessment (results compared to screens) of the first round of Gulfco samples below. Let me know if you have any questions/comments on this.

Also, PBW will be sending to us in the near future proposals to change the iron screening levels, and to consider using some Region 6 generic background levels. I would appreciate any comments you may have on these.

Thanks,

Gary Miller

For the Gulfco Marine Maintenance site in Freeport, Galveston County, Texas, EA is submitting the electronic (PDF and MS EXCEL) versions of the tables summarizing the evaluation and comparison with site-specific preliminary screening values (PSVs) for soil/sediment/ground water/surface water data collected and validated by Pastor, Behling & Wheeler, LLC through 30 November 2006.

EA will also deliver a hard copy of this submittal to the EPA mail room, which includes the electronic version of the Microsoft Access database (on compact disc) as revised by EA during the data evaluation process.

Please contact me with any questions regarding this submittal.

9543085

Thank You
